

WELCOME TO

About US

Dominant venture is providing online foreign exchange brokerage services to both retail and institutional client with its best possible trading. The company is specializing in trading the financial instruments of the Forex market, commodity-based derivative instruments and other securities. Building relationships with our clients, we emphasis on offering low spreads, real-time market pricing information provided via a direct link to the interbank market, and the exclusive margin policy. Our full margin usage policy allows traders to maximize the full potential of their trading account, while the negative balance protection program safeguards against losses, exceeding the user-determined level.

VISION & MISSION

Our mission is to provide the best online service in the Forex market in terms of small investment requirements and value for retail clients and focus on a long term fruitful cooperation with clients, partners and employees. Long-term straight and transparent communication is what we regard as of principal importance.

Dominant venture Is Working To Be Worldwide Number One Most Secure Trading Platform For Investors & Traders By 2025.

WHY US?

We lead the industry in matters of fairness and transparency with us you can trade FX, Shares, Futures, Indices, Energies and Metals. Our clients enjoy instant order execution at the current market price, Best Bid and offer and One Click Trading.

WHY US?

FOREX MARKET

The foreign exchange market (Forex, FX, or currency market) is a global decentralized or over-the-counter (OTC) market for the trading of currencies. This market determines foreign exchange rates for every currency. It includes all aspects of buying, selling and exchanging currencies at current or determined prices.

FOREX TRADING ONLINE

A market that attracts about \$5.2 trillion in daily volume, recognized as world's largest market, accessible globally 24 hours a day - that is exactly what the Currency and Forex market is made up of. The advantage of small margin requirements and lower entry barriers makes it an important part of a retail investor's portfolio.

CRYPTO MARKET

Crypto currency, sometimes called crypto-currency or crypto, is any form of currency that exists digitally or virtually and uses cryptography to secure transactions. Crypto currencies don't have a central issuing or regulating authority, instead using a decentralized system to record transactions and issue new units

- ❖ When you buy crypto currencies via an exchange, you purchase the coins themselves. You'll need to create an exchange account, put up the full value of the asset to open a position, and store the crypto currency tokens in your own wallet until you're ready to sell.
- ❖ Exchanges bring their own steep learning curve as you'll need to get to grips with the technology involved involved and learn how to make sense of the data. Many exchanges also have limits on how much you can you can deposit, while accounts can be very expensive expensive to maintain.
